

What I need from you.

Items 1 and 2 are the only ones blocking go-live. The rest can follow at your pace.

Please do not send me any passwords. Wherever possible, keep the account in Sinonin's name and add me as a collaborator. You own everything, and you can remove my access at any time.

NEEDED TO PUT THE SITE LIVE

- ☐ **1. Access to your domain.** Add me as a user wherever **sinoninbio.tech** is registered. If you would rather not, tell me who manages it and I will send you two records to paste in yourself.
A five minute change. Nothing else can go live until it is done.
- ☐ **2. A hosting account in your name.** Create an account at **vercel.com** using a Sinonin email address, and send me that address.
I will transfer the site so the hosting belongs to Sinonin, not me. A commercial site needs their paid plan, about 20 USD a month. I will confirm the options with you first.

NEEDED FOR THE CONTACT AND REPORT FORMS

- ☐ **3. Confirm which address enquiries should reach.** Your Impressum lists **info@SinoninBio.tech**. The forms are currently set to **contact@sinoninbio.tech**.
Whichever you choose needs to be an inbox you actually watch, since it is your published legal contact address.
- ☐ **4. One confirmation click.** A single verification email will arrive at that address. Open it and click the link.
Once only. After that every enquiry arrives in your inbox directly.
- ☐ **5. Your booking link.** The real calendar URL behind the "Request a Meeting" button.
Your current HubSpot link works if you want to keep it, or I can set up Calendly instead.

NEEDED TO HAND OVER THE CONTENT SYSTEM

- ☐ **6. An email address for your CMS invite.** This is what lets you publish articles and change images yourself. You set your own password.

FROM THE CURRENT WEBSITE

- ☐ **7. The market report files you sell,** plus any images you want carried across.
Read access to the WordPress admin is enough, or just send the files.
- ☐ **8. Keep the WordPress hosting running for now.** Please do not cancel it until we have switched over and settled for a few days.
It is the fallback if anything needs checking during the move.

OPTIONAL, BUT WORTH DOING

- ☐ **9. Google Search Console access.** Add me as a user.
So I can submit the new sitemap and confirm your rankings carry over.
